

MOBILE MEASUREMENT TECHNOLOGY

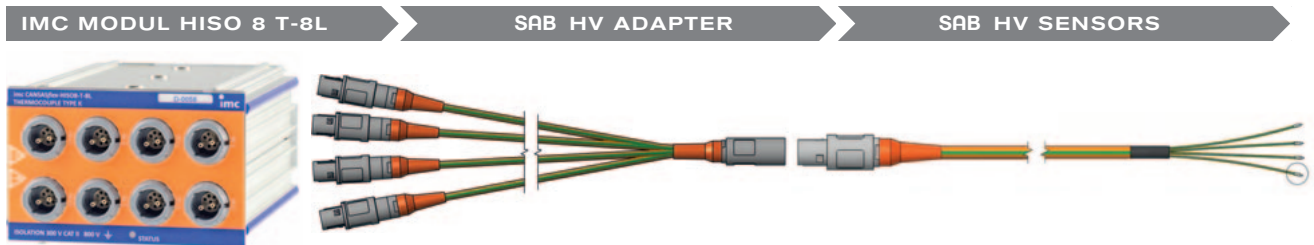

4 X 1-CHANNEL REDEL-MALE CONNECTOR TO 4-CHANNEL REDEL-FEMALE CONNECTOR HV adaptation

scoop-proof area

The wide range of different high voltage systems requires highest flexibility to connect the sensors to the measurement technology. With the help of the above shown adapter you can adapt the 4 channel HV thermocouples to the different modules without any problem as for example the imc CANSASflex-HIO8-T-8L or the M-THERMO2 HV of Ipetronik.

EXAMPLE MEASURING CHAIN

- connection cable length: _____
- connection end 1:
Redel-male connector 4 x type K – 2-poles
- connection end 2:
Redel-female connector type K – 8-poles
- marking:
standard: channel 1 - 4
special: _____

CONFIGURATION EXAMPLE

item no.	cable length (mm)
T141-062-515	300
